

Non-Intake Admissions Process for 2025-2026

Non-intake grades (Grades 2, 3, 5, 7, 9, 10) are grades where we only have openings if current students indicate they will not be returning. The non-intake admissions process occurs later in the year with some key differences from intake grades. See below.

Process Snapshot: All applications to non-intake grades are thoroughly reviewed by the Admissions Committee. Only shortlisted applicants will proceed to the next stage, which includes attending the admissions assessment. Based on the anticipated number of openings for each grade, first-round interview invitations will be extended to selected applicants.

The [SSAT](#) is required for shortlisted applicants to Grade 8 to Grade 12.

For the full admissions process, please visit the [How to Apply webpage](#), or refer to our [FAQ Section](#) for further information.

Grades	Openings	Application Deadline	Shortlist Communication	Admissions Assessment	Additional Requirements	Invite to Interview	Interviews	Admissions Decisions
